OPEN MEETING AGENDA ITEM

BEFORE THE ARIZONA CORPORATION COMMISSION

COMMISSIONERS

2009 DEC -8 P 3: 09

Arizona Corporation Commission

KRISTIN K. MAYES, Chairman **GARY PIERCE** SANDRA D. KENNEDY PAUL NEWMAN **BOB STUMP**

AZ CORP COMMISSION DOCKET CONTROL

DOCKETED

DEC - 8 2009

DOCKETED BY

IN THE MATTER OF THE APPLICATION OF

SUNRISE WATER CO., AN ARIZONA CORPORATION, FOR A DETERMINATION OF THE CURRENT FAIR VALUE OF ITS UTILITY PLANT AND PROPERTY AND FOR INCREASES IN ITS RATES AND CHARGES BASED THEREON FOR UTILITY SERVICE

DOCKET NO. W-02069A-08-0406

EXCEPTIONS OF SUNRISE WATER COMPANY

Pursuant to A.A.C. R14-3-110(B), Sunrise Water Company ("Sunrise") hereby submits its Exceptions to the December 2, 2009, Recommended Opinion and Order ("ROO").

Sunrise has approached this case with the goal of reducing issues through compromise whenever possible. Sunrise appreciates that efforts of Staff to compromise and notes that the ALJ has proposed compromise positions for several of the remaining disputed items. Although disappointed that its position did not prevail on the remaining contested issues—particularly the issue of hydrant-water sales-normalization—Sunrise will continue its effort to reduce issues by limiting its exceptions to the single issue of the recovery of pro-forma income-tax expense and the impact of that disallowance on operating margin.

Exception 1 – Income Tax Expense¹

The ROO would disallow income-tax expense for Sunrise. This would be poor public policy.

The Commission should not discriminate against S-Corps or LLCs by disallowing their recovery of demonstrated income-tax expense, when it allows subsidiaries or operating divisions

¹ This issue has been extensively briefed, so Sunrise will only summarize its argument here.

of C-Corps to recover income-tax expense. The equities are identical. In each case, the regulated entity is not the entity that pays the allowed income-tax expense; rather, the regulated entity passes income-tax liability on to the ultimate taxpayer, who must make the required income-tax payments.

In the case of either an S-Corp or a C-Corp that is part of a holding company (as most are in this state), it is the ultimate shareholder that pays the taxes. The Commission does not calculate the actual tax liability as part of a rate case. Rather, the Commission calculates hypothetical tax liability as if the entity were a stand-alone company. There is no justifiable reason that the Commission should allow APS, Southwest Gas, Arizona-American Water, or Tucson Electric to recover hypothetical tax expense and to deny Sunrise such recovery.

As recognized by many other courts and commissions, income-tax expense is a genuine cost of doing business as a regulated utility. The Commission came to this same conclusion in the 1997 case of Camp Verde Water System, Inc., Decision No. 60105, dated March 19, 1997. In this case the Commission allowed recovery of income-tax expense by an S-Corp, where the bank would not loan funds if income-tax expenses were not allowed.

The Camp Verde case highlights the economic reality that S-Corps have real income tax expenses. Because the bank's investment would only be repaid with after-tax dollars, it insisted on recovery of income-tax expense in rates. The Commission acknowledged economic reality and allowed Camp Verde to recover expected income-tax expense.

Put another way, only the funds left over after paying taxes and other business expenses are available to fund additional plant investment. If income-tax expense were not recoverable, the effect would be to reduce the allowed return on equity and diminish the funds available for plant investment. As the Commission is well aware, small water companies, many of which are LLCs or S-Corps, are struggling to raise the funds they require to invest in new infrastructure.

The ROO states that there is no documentary evidence that Sunrise's income was passed through to Mr. Campbell.² This is technically true, but Mr. Jones did testify that:

Mr. Campbell paid income taxes on Sunrise's test year taxable income of \$258,646 at a combined federal and state marginal rate of 32.5% and an overall effective rate of 23.0%.³

This evidence is uncontroverted. Staff did not conduct any discovery concerning this statement or challenge it in any way, so no further documentation was supplied. If Staff had requested documentation, Sunrise could have provided a copy of Sunrise Water's test-year (2007) 1120S tax return and Schedule K-1. Copies of these documents are attached as Exhibit A. The return confirms Mr. Jones' testimony that Sunrise passed through \$258,646 of taxable income to Mr. Campbell.

That Sunrise actually generated and distributed taxable income to its shareholder is a critical distinction between this and other cases being considered by the Commission. For example, Sunrise is aware that there is a current rate case involving Johnson Utilities, LLC ("Johnson").⁴ In that case, Johnson is also asking to recover income-tax expense. However, Johnson provided no evidence that it generated any taxable income or that its members were responsible for paying any income taxes.

Johnson may actually be provided better treatment by the Commission than the ROO would provide for Sunrise. According to Staff, Johnson's water rate base is negative and its wastewater rate base is barely positive. Because of inadequate rate bases, Staff is proposing that Johnson be provided a 10-percent operating margin, the alternative ratemaking treatment traditionally provided for investment-poor water utilities.⁵

In contrast to Johnson and many other Arizona water utilities, Sunrise has made a significant investment in water infrastructure. Mr. Campbell has provided Sunrise the funds needed to invest in water infrastructure, including arsenic-remediation facilities. As a result,

² ROO at 37:8-9.

³ Ex. A-15 at 16:18-20.

⁴ Docket No. WS-02987A-08-0180.

⁵ See Staff's final schedules in Docket No. WS-02987A-08-0180, dated October 30, 2009.

Sunrise has a substantial rate base and, although it was under-earning, it was able to generate verifiable taxable income in the test-year. Yet, the ROO would provide Sunrise an operating margin of just 7.43 percent, much worse than Staff's proposed 10-percent operating margin for Johnson.⁶

Disallowing income-tax expense reduces Sunrise's operating margin below the minimum of 10 percent typically recommended for investment-poor water utilities.⁷ This supports the equity of the Commission recognizing tax-expense for an S-Corp or an LLC when the utility has sufficient rate base to allow for traditional rate of return rate-making, <u>and</u> it can provide evidence that it actually has generated taxable income that it passes on to a member or shareholder.

The evidence is clear that Sunrise generated taxable income in the test year and passed it on to Mr. Campbell, who was responsible for paying the resulting taxes. Mr. Campbell has also invested enough of his own funds into Sunrise so that it has a large enough rate base to allow traditional rate-making. Given these two factors, it is appropriate to recover adjusted test-year income-tax expense and to gross up the revenue requirement for income-taxes. Exhibit B is a proposed amendment to this effect.

Exception 2 - Operating Margin

As discussed above, the ROO would provide Sunrise an operating margin of just 7.43%, much less than the normal 10%. If the Commission will not allow Sunrise to recover income tax expense, then Sunrise asks the Commission to at least treat it no worse than it treats water companies that have not made sufficient investment in plant to generate a positive rate base. Mr. Campbell has set a good example by investing the funds needed to build and maintain a modern, safe water utility, including arsenic-remediation facilities. This is exactly the behavior that the Commission is trying to encourage from utility investors.

⁶ Operating Margin = Operating Income/Revenue Requirement, or \$104,020 ÷ \$1,399,237 = 7.43%. See ROO at 40:23-25.

With income tax recovery, Sunrises pre-tax operating margin is 11.18 percent.

Providing Sunrise less than a 10-percent operating margin would send a message to
Arizona utilities and their investors that the Commission will treat utilities making needed
infrastructure investments worse than utilities that have neglected their rate bases. This would be the wrong message to send.

Exhibit C is a proposed amendment that would adjust Sunrise's rates to provide it a 10% operating margin.

RESPECTFULLY SUBMITTED on December 8, 2009.

SUGGESTED INCOME-TAX AMENDMENT TO RECOMMENDED OPINION AND ORDER

Page 32, Line 2,

DELETE last sentence of paragraph.

Page 36, Line 9,

DELETE paragraph 88 and REPLACE with the following paragraphs:

88. This appears to be the first time that the Commission has been faced with the issue of whether a Class A or B water utility, which is also an S corporation, should be allowed to recover income-tax expense. On balance we are persuaded that, based on the facts of this case, Sunrise should be allowed to recover this expense and that its revenue requirement should be grossed up for the effect of income taxes. It is true that Sunrise does not directly pay income taxes, but this is equally true, for example, for APS (corporate subsidiary) and for Arizona-American Water Company's Sun City Water Division (operating division). In each case, income-tax liability is passed on to the ultimate owner for payment. Further, Sunrise has demonstrated that it generated income-tax liability in the test year and that Mr. Campbell was responsible for the resulting income taxes. Finally, Sunrise has a positive rate base that is sufficient for traditional ratemaking, as long as income-tax expense is recognized. Given these circumstances, it is appropriate for Sunrise to recover income-tax expense and to gross up its revenue requirement for the effect of income taxes.

89. We will approve Sunrise's alternate methodology for computing income-tax expense. This method assumes that the S corporation had just one shareholder (which it does), who filed a return as married filing jointly and derived all of his or her income from the regulated

¹ The Camp Verde case appears to have involved a Class C utility.

² Ex. A-15 at 16:18-20.

³ Absent recovery of income-tax expense, this order would only provide Sunrise an operating margin of 7.43%, which is substantially less than that provided for water utilities with minimal or negative rate bases.

SUGGESTED INCOME-TAX AMENDMENT TO RECOMMENDED OPINION AND ORDER

utility. This results in a lower income-tax expense than if we computed the taxes as if Sunrise were a stand-alone taxable entity. In addition, as proposed by Sunrise and recommended by Staff, we will allow recovery of accumulated deferred income tax ("ADIT") as an addition to rate base. However, we will calculate ADIT using the combined federal and state effective tax rate of 30.0791% from Sunrise's alternate methodology, rather than the corporate tax rate recommend by Sunrise and Staff. This results in the addition of \$99,891 in ADIT rather than the \$143,632 proposed by Sunrise and Staff. The resulting income-tax expense is \$49,045 RENUMBER subsequent paragraphs.

Page 38, Line 21,

DELETE last sentence of existing Paragraph 91.

Page 40, Line 9,

DELETE first sentence of existing paragraph 98 and REPLACE with the following sentence:

We find the Sunrise's OCRB is \$1,140,093, calculated by modifying Staff's recommended OCRB of \$1,183,834 to exclude \$43,741 in ADIT.⁴

Page 40, line 12,

DELETE the last sentence of paragraph 98 and REPLACE with the following sentence: Thus, we find that Sunrise's FVRB is equivalent to its OCRB of \$1,140,093.

⁴ \$43,741 is the difference between \$143,632 in ADIT recommended by Staff and \$99,891 allowed herein.

SUGGESTED INCOME-TAX AMENDMENT TO RECOMMENDED OPINION AND ORDER

Page 40, Lines 20 through 22,

DELETE Paragraph 101 in its entirety.

Page 40, line 23,

DELETE first sentence of existing paragraph 102 and REPLACE with the following

sentence:

Based on the adjustments made herein, we find that Sunrise should be permitted to recover operating income of \$114,009 and total operating expenses of \$1,344,262, for an overall

revenue requirement of \$1,458,272.

Page 40, line 27,

DELETE paragraph 103 and REPLACE with the following paragraph:

We find that it is appropriate to adopt Staff's recommended monthly usage charges and

Staff's recommended commodity rate tier break-over points. However the overall revenue

requirement established herein necessitates commodity rates higher than those recommended by

Staff. With the rates adopted herein, the monthly bill for a customer served by a 3/4" meter with

average consumption will be increased from \$62.68 to \$64.09, representing an increase of \$1.41,

or approximately 2.25 percent over current rates.

SUGGESTED OPERATING MARGIN AMENDMENT TO RECOMMENDED OPINION AND ORDER

Page 36, Line 9,

INSERT new paragraph after paragraph 88:

89. Although we have determined that allowing income-tax expense for Sunrise would be inconsistent with the Commission's long-standing policy of denying recovery of income tax expense for pass-through entities, we do note that, in contrast to many other Arizona water utilities, Sunrise has made sufficient investment in plant to generate a substantial positive rate base. Mr. Campbell has provided Sunrise the funds needed to invest in water infrastructure, including arsenic-remediation facilities. As a result, Sunrise has an adequate rate base. Yet, by denying income-tax recovery the Commission would provide Sunrise an operating margin of just 7.43 percent, substantially less than the 10-percent operating margin the Commission traditionally provides for utilities with negative or minimal rate bases. Certainly, Sunrise should be treated no worse than these financially-distressed utilities, so we will calculate Sunrise's revenue requirement based on a 10-percent operating margin.

SUGGESTED OPERATING MARGIN AMENDMENT TO RECOMMENDED OPINION AND ORDER

DELETE first sentence of existing paragraph 102 and REPLACE with the following

sentence:

Based on the adjustments made herein, we find that Sunrise should be permitted to

recover operating income of \$143,913 and total operating expenses of \$1,295,217, for an overall

revenue requirement of \$1,439,130.

Page 40, line 27,

DELETE paragraph 103 and REPLACE with the following paragraph:

We find that it is appropriate to adopt Staff's recommended monthly usage charges and

Staff's recommended commodity rate tier break-over points. However the overall revenue

requirement established herein necessitates commodity rates higher than those recommended by

Staff. With the rates adopted herein, the monthly bill for a customer served by a 3/4" meter with

average consumption will be increased from \$62.68 to \$63.23, representing an increase of \$0.55,

or approximately 0.88 percent over current rates.
